Excellent Career Opportunities

With internationally ranked programs taught by expert faculty, UD’s College of Engineering is providing students the tools, experience and unparalleled education that will make them competitive in a global job market. Cross-disciplinary training programs and collaborative research opportunities provide us with exciting new ways to develop highly skilled and well-rounded engineers who are focused on solving the grand challenges in engineering: health, sustainability, security and quality of life.

The University of Delaware is a leader in problem-based scholarship and connects student learning to real life in every major. Engineering students have access to state-of-the-art facilities, internationally renowned faculty and other resources. Research informs the curriculum content, and students learn by exploring real-world problems.

Engineering Undeclared students use the first semester Introduction to Engineering course to explore the breadth of engineering and computer science options, allowing them to make an informed choice of major when they register for spring semester classes.

Available Majors

- Biomedical Engineering
- Chemical Engineering
- Civil Engineering
- Computer Engineering
- Computer Science
- Construction Engineering & Management
- Electrical Engineering
- Environmental Engineering
- Information Systems
- Materials Science & Engineering
- Mechanical Engineering

The University of Delaware is an equal-opportunity/affirmative-action employer and Title IX institution. For the University’s complete non-discrimination statement, please visit http://www.udel.edu/home/legal-notices.
Engineering Undeclared (EGU) Curriculum:
Successful completion of the Common Fall Semester positions students to finish any engineering major in four years, provided they are on track with the calculus sequence for that major.

FIRST YEAR

<table>
<thead>
<tr>
<th>FALL</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>EGGG 101 - Introduction to Engineering (FYE)</td>
<td>2</td>
</tr>
<tr>
<td>CHEM 103 - General Chemistry</td>
<td>4</td>
</tr>
<tr>
<td>MATH 241 - Analytic Geometry &amp; Calculus A</td>
<td>4</td>
</tr>
<tr>
<td>CISC 106 - General Computer Science for Engineers</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 110 - Seminar in Composition</td>
<td>3</td>
</tr>
</tbody>
</table>

Total Credits: 16

*Currently, all College of Engineering majors are restricted. However, all first-year freshmen EGU students who submit their Change of Major request by the published deadline will be allowed access to their requested major based upon their performance relative to the first-year freshmen EGU Change of Major applicant pool and the physical capacity limitations as determined by the department.
